

CLARA POLLOCK

clara.pollock@nbi.ku.dk

+44 7913 233920 ◊ +45 91 67 92 43

Copenhagen, Denmark

EDUCATION

- 2024 – 2028** **PhD in astronomy** — Cosmic DAWN Center, Niels Bohr Institute, Denmark
Spectroscopic characterisation of the gas and chemical enrichment of the first galaxies
Supervisors: Kasper Elm Heintz & Sune Toft
- 2019 – 2024** **Integrated Masters, MPhys Astrophysics** — University of Edinburgh, UK
First Class Honours
Thesis: Strong-line metallicity calibrations for high-redshift galaxies
Supervisors: Fergus Cullen & Karla Arellano-Córdova
- 2022 – 2023** **Erasmus exchange** — Lund University, Sweden

RESEARCH INTERESTS

Early galaxy formation, spectroscopy, chemical abundances and enrichment, Lyman- α absorption, and reionisation.

PUBLICATIONS

Thirteen papers, one of which is first-author. A total of 610 citations (Dec 2025).

Selected publications with significant contributions:

- **C. L. Pollock** et. al. “Novel $z \sim 10$ auroral line measurements extend the gradual offset of the FMR deep into the first Gyr of cosmic time”, [arXiv.2506.15779](#) (submitted, 2025)
- K. E. Heintz, **C. L. Pollock** et. al. “Dissecting the Massive Pristine, Neutral Gas Reservoir of a Remarkably Bright Galaxy at $z = 14.179$ ”, [A&A 987, 1](#) (2025)
- R. Naidu et. al. **incl. C. L. Pollock** “A Cosmic Miracle: A Remarkably Luminous Galaxy at $z_{\text{spec}}=14.44$ Confirmed with JWST”, [arXiv:2505.11263](#) (submitted, 2025)
- K. E. Heintz et. al. **incl. C. L. Pollock** “A massive, neutral gas reservoir permeating a galaxy proto-cluster after the reionization era”, [Nature Astronomy](#) (accepted, 2026)

SCHOLARSHIPS AND AWARDS

- 2019 – 2024** DHL UK Foundation Undergraduate Scholarship (£10,000)
- 2022 & 2023** Summer Vacation Scholarship — University of Edinburgh, School of Physics and Astronomy (£3,000)
- 2019 – 2021** Certificate of Merit — University of Edinburgh, School of Physics and Astronomy
- 2016 – 2019** Texas Instruments Excellence in STEM Award — Clydeview Academy
- 2017/2018** Dux Award — Clydeview Academy

TALKS

- 2025** *Miracles of the Early Universe I* — Geneva, Switzerland
Direct metallicities and neutral hydrogen in the early universe
- 2026, planned** *Charting Cosmic Dawn* — Copenhagen, Denmark
Connecting neutral gas reservoirs to star formation efficiency in the earliest galaxies

TEACHING & PROFESSIONAL RESPONSIBILITY

- 2025 –** Teaching Assistant — Applied Statistics: From Data to Results
- 2025 – 2026** Local Organising Committee — Charting Cosmic Dawn in Copenhagen Conference
- 2025 –** Organiser of research talks — Monthly DAWN days, Neils Bohr Institute
